

know-how

Home page creation tips. Want to build your own Web site but unsure of where to start? Then bone up on design basics, grasp graphic fundamentals and learn about time-saving power tools in this month's installment of AT&T's *User's Guide to the Information Age*. [Web-page improvement time.](#)

Distracted driving. We've all seen them - people driving while reading the newspaper, applying make-up, eating and drinking, or dialing a cell phone. While those are obvious examples of driver distraction, many other activities cause inattentive driving. Take this short quiz, courtesy of AT&T Wireless Services, for [insights on your driving habits.](#)

on the drawing board

The buzz on fat pipes. Broadband technologies are off the drawing board and in the marketplace. How can they benefit you? What are the differences between cable and DSL? Are some technologies more appropriate for businesses than consumers? [See our broadband primer for the answers.](#)

Zip around the Internet. Experience intense multimedia content that a 28.8 or 56K phone modem is too wimpy to deliver. With AT&T@Home, information appears at lightning speed. Order by Oct. 31 for free installation and two months of free service. Take the multimedia tour, check for availability and details in your area. [Order AT&T@Home online.](#)

Broadband your world. High-speed cable Internet access, digital cable TV, data hosting and networking, wireless broadband, and more. Explore AT&T's broadband world and view the latest AT&T Boundless TV commercials. [Find out how.](#)

Big ideas for small businesses. Conveniently conduct business in the AT&T Small Business Center, which features product and service information, online ordering and account details, and tips from the Small Business Advisor. [Take care of business.](#)

There's no place like home. Find a new house or apartment, take a virtual tour, apply for a mortgage, and get advice on home buying in the AT&T WorldNet® Service Real Estate Center. [Location, location, location.](#)
